SEC Rule 11Ac1-6 Report
Routing of Customer Orders
For Quarter Ending June 30, 2004

The report provides information on the routing of "non-directed orders" - any order that the customer has not specifically instructed to be routed to a particular venue for execution.

The report is divided into four sections: securities listed on the New York Stock Exchange, securities listed on The NASDAQ Stock Market, securities listed on the American Stock Exchange or regional exchanges, and exchange-listed options. For each section, this report identifies the venues most often selected by Golden Beneficial Securities, sets forth the percentage of various types of orders routed to the venues, and discusses the material aspects of Golden Beneficial Securities' relationship with the venues.
